

Lab 01

GitHub Identity, Student Portal Registration, and Ubuntu Server Installation

Name	Hira Faisal Khan
Registration Number	2024-BSE-07
Course Code	SE-665
Section	A
GitHub Username	hirafaisalkhan2007-arch

Task 1: Create and Configure Your GitHub Account

Caption: This screenshot shows my GitHub profile page with my actual name and GitHub username visible.

Caption: This screenshot shows the Name field under GitHub Settings > Public profile filled in with my complete actual name.

Task 2: Register in the Student Marks Portal

File: portal_login_page.png

ID

Complete registration

Enter your registration number, course and section.
The enrollment requires approval.

Registration number

2024-BSE-07

Allowed: 2024-BSE-01 to 2024-BSE-99.

Course

SE-665 — Cloud Computing

Section

Section A

Submit enrollment

1

Caption: This screenshot shows my enrollment submitted in the portal with my registration number, course code, and section.

Task 3: Download VMware Workstation Pro and Ubuntu Server

Caption: This screenshot shows VMware Workstation Pro open and running on my computer.

Caption: This screenshot shows the downloaded Ubuntu Server LTS ISO file and its filename.

File: available_storage.png

Caption: This screenshot shows at least 20 GB of free storage available for the Ubuntu Server virtual machine.

Task 4: Create the Ubuntu Server Virtual Machine

File: vm_creation_wizard.png

Caption: This screenshot shows the New Virtual Machine Wizard opened in VMware Workstation Pro.

File: vm_typical_configuration.png

Caption: This screenshot shows the 'Typical (recommended)' virtual machine configuration option selected.

File: vm_ubuntu_iso_selected.png

Caption: This screenshot shows the Ubuntu Server ISO file selected as the installer disc image.

File: vm_configuration_summary.png

Caption: This screenshot shows the final virtual machine configuration summary with at least 20 GB of allocated disk space.

File: ubuntu_installer_boot.png

Caption: This screenshot shows the Ubuntu Server installer boot screen after powering on the virtual machine.

Task 5: Choose the Installation Language

File: ubuntu_language.png

Caption: This screenshot shows the installation language selected in the Ubuntu Server installer.

Task 6: Configure the Keyboard Layout

File: ubuntu_keyboard_layout.png

Caption: This screenshot shows the keyboard layout selected in the installer.

File: ubuntu_keyboard_variant.png

Caption: This screenshot shows the keyboard variant selected in the installer.

Task 7: Choose the Ubuntu Server Installation Type

File: ubuntu_installation_type.png

Caption: This screenshot shows the normal Ubuntu Server installation option selected, not MAAS.

Task 8: Configure the Network

File: ubuntu_network_interface.png

NAME	TYPE	NOTES
ens33	eth	-

Caption: This screenshot shows the network interface detected by the Ubuntu Server installer.

File: ubuntu_installer_network.png

[Create bond ►]

[Done]
[Back]

Caption: This screenshot shows the network interface has received an IP address automatically through DHCP.

Task 9: Configure Storage

File: ubuntu_guided_storage.png

Caption: This screenshot shows the guided storage option selected, using the VMware virtual disk.

File: ubuntu_storage_configuration.png

Caption: This screenshot shows the storage configuration reviewed before continuing with installation.

Task 10: Select the Installation Disk

File: ubuntu_selected_disk.png

```
[ /dev/sda                                local disk                20.000G ▶  
partition 1 new, BIOS grub spacer          1.000M ▶  
partition 2 new, to be formatted as ext4, mounted at /boot 1.771G ▶  
partition 3 new, PV of LVM volume group ubuntu-vg 18.225G ▶
```

Caption: This screenshot shows the virtual disk selected for the Ubuntu Server virtual machine.

File: ubuntu_disk_details.png

```

```

Caption: This screenshot shows the disk name and size, confirming it is the correct VMware virtual disk.

Task 11: Review the Partitions

File: ubuntu_partition_layout.png

Caption: This screenshot shows the proposed partition layout belonging to the VMware virtual disk.

Task 12: Confirm the Storage Changes

File: ubuntu_storage_warning.png

```
e RAID (md) ▶ ]
group (LVM) ▶ ]

          Confirm destructive action

Selecting Continue below will begin the installation process and
result in the loss of data on the disks selected to be formatted.

You will not be able to return to this or a previous screen once the
installation has started.

Are you sure you want to continue?

[ No ]
[ Continue ]
```

Caption: This screenshot shows the final destructive-action warning displayed before confirming storage changes.

File: ubuntu_storage_confirmed.png

```
ID (md) ▶ ]
o (LVM) ▶ ]

          Confirm destructive action

Selecting Continue below will begin the installation process and
result in the loss of data on the disks selected to be formatted.

You will not be able to return to this or a previous screen once the
installation has started.

Are you sure you want to continue?

[ No ]
[ Continue ]
```

Caption: This screenshot shows the storage changes confirmed after verifying the correct disk was selected.

Task 13: Configure the Ubuntu Profile

File: ubuntu_actual_name.png

The screenshot shows a terminal window titled 'Profile configuration' with a '[Help]' link in the top right. The text inside reads: 'Enter the username and password you will use to log in to the system. You can configure SSH access on a later screen, but a password is still needed for sudo.' Below this, the 'Your name:' label is followed by a text input field containing 'Hira Faisal Khan'.

Caption: This screenshot shows my complete actual name entered in the 'Your name' field.

File: ubuntu_server_name.png

The screenshot shows a terminal window with the label 'Your servers name:' followed by a text input field containing 'ubuntu'. Below the field, a smaller text line reads: 'The name it uses when it talks to other computers.'

Caption: This screenshot shows 'ubuntu' entered in the 'Your server's name' field.

File: ubuntu_username.png

The screenshot shows a terminal window with the label 'Pick a username:' followed by a text input field containing 'hirafaisalkhan2007-arch'.

Caption: This screenshot shows my exact GitHub username entered in the 'Pick a username' field.

File: ubuntu_profile_setup.png

The screenshot shows a terminal window titled 'Ubuntu Server' with a 'Home' button in the top left. The main content area is titled 'Profile configuration' with a '[Help]' link. It contains the following fields and values: 'Your name:' with 'Hira Faisal Khan', 'Your servers name:' with 'ubuntu', 'Pick a username:' with 'hirafaisalkhan2007-arch', 'Choose a password:' with '*****', and 'Confirm your password:' with '*****'. A green '[Done]' button is at the bottom. The terminal prompt 'k inside or press Ctrl+G.' is visible at the very bottom.

Caption: This screenshot shows the completed Ubuntu profile setup page with all fields reviewed.

Task 14: Complete the Software Installation

Caption: This screenshot shows the Ubuntu Server software installation in progress.

Task 15: Reboot and Verify the Ubuntu Identity

File: ubuntu_installation_complete.png

```
